The Esther School, a division of Dynamic Youth Ministries, is a Christian day school in an underserved region of Zambia. Opened in the fall of 2012, the school equips children to serve God, their families, and their communities to their fullest potential.

We believe that children have a purpose—not just someday—but right here, right now. They are capable of amazing ingenuity and are bursting with potential. The Esther School seeks to nurture the whole child, unlocking the full, God-given potential of all of our students by addressing their educational, emotional, and spiritual needs.

**Mission--** to provide a holistic, Christian education that develops the passion and skills students need to become servant leaders in the Kingdom of God.

**Vision--** is to build a thriving community of faithful and skillful servant leaders aided by the development of a strong and mutually edifying partnership between parents, community members, and Christ-followers from other countries around the world.
